Contents

Contributors ........................................ 9
Acknowledgements .............................. 11
Foreword .......................................... 13
Preface ........................................... 15

SECTION ONE  THE COMPANION BIRD

1 THE AVIAN PATIENT ......................... 26
Ross A. Perry
Selection of Companion Birds ............ 27
The Home Environment ................. 33

2 THE AVIAN FLOCK ......................... 45
Susan L. Clubb, Keven Flammer
Flock Preventive Medicine .......... 46
Evaluating and Treating Flock Problems .... 59

3 NUTRITION ............................. 63
Randal N. Brue
Water .......................................... 65
Nutrient Interrelationships .......... 66
Methods for Determining Nutrient Requirements ... 69
Current Nutritional Knowledge ...... 73
Essential Nutrients and Their Biological Functions ... 78

SECTION TWO  PATIENT EVALUATION

7 PRACTICE DYNAMICS ..................... 131
Cathy A. Johnson-Delaney
Getting Started ............................ 132
Accommodating the Avian Patient .... 136
Environmental Responsibility ......... 142

8 MAKING DISTINCTIONS
IN THE PHYSICAL EXAMINATION ......... 144
Greg J. Harrison, Branson W. Ritchie
Anamnesis ..................................... 145
Physical Examination ................... 147

9 HEMATOLOGY .......................... 176
Terry W. Campbell
Processing the Avian Hematologic Sample 177
Interpretation of the Avian Hemogram 188
Evaluation of the Hematopoietic Tissue 191

10 CYTOLOGY .............................. 199
Terry W. Campbell
Sample Collection .......................... 200
Evaluation of the Cytologic Sample ... 205
Cytology of Commonly Sampled Fluids and Tissues 208

11 BIOCHEMISTRIES ......................... 223
Manfred Hochleithner
Laboratory Considerations ............ 224
Reference Values - Reference Intervals 225
Types of Testing ............................ 226
Indices ........................................ 227

12 IMAGING TECHNIQUES ................. 246
Marjorie C. McMillan
Technical Considerations .............. 247
Radiographic Interpretation .......... 249
Contrast Procedures ..................... 256
Alternative Imaging ...................... 260
Radiographic Anatomy and Abnormalities 261

13 ENDOSCOPIC EXAMINATION
AND BIOPSY TECHNIQUES ................. 327
Michael Taylor
Clinical Applications of Endoscopy .. 339
Biopsy Techniques ....................... 347

14 NECROPSY EXAMINATION ............... 355
Kenneth S. Latimer, Pauline M. Rakich
Necropsy Record ............................ 356
Preparing for the Necropsy .......... 357
The Necropsy Examination ......... 358
Specimen Collection for Ancillary Testing .... 376

Prologue

AVIAN CONSERVATION:
THE VETERINARIAN’S ROLE ............ 17
Robert Groskin
Man and Birds .............................. 18
Conservation Biology ................... 20

DEFENSE MECHANISMS
OF THE AVIAN HOST ................. 109
Helga Gerlach
Nonspecific Defense .................... 110
Specific Defense ......................... 114
Disturbance of the Defense System ... 119

FUTURE PREVENTIVE MEDICINE ....... 121
Branson W. Ritchie
Overview of DNA and RNA .......... 122
DNA Probe Technology ............... 122
Vaccines .................................... 126
Antimicrobial Therapy ................ 127
### SECTION THREE  TREATMENT REGIMENS
